

# Isaiah – Lesson 6

www.ThyWordIsTruth.com

Holbein's woodcuts of the Old Testament, like Botticelli's illustrations for the *Divine Comedy* (1481), represent one of the all-too-rare conjunctions of a great draftsman with a great work of literature. Hans Holbein (1497-1543) designed his series of 94 illustrations between 1525 and 1530, in Basel.

## The Vineyard of Desolation

From the second through the fifth chapters, Isaiah details the sad state of his country under her feeble rulers. In chapter five, he provides a vivid metaphor of the results of Judah's forsaking of Jehovah and her seeking security from Assyria. This picture is an artist's conception of that metaphor.
