

2-Timothy 1:5;

When I call to remembrance the unfeigned faith that is in thee, which dwelt first in thy grandmother Lois, and in thy mother Eunice; and I am persuaded that in thee also.

1-Timothy's faith:

1-The quality of Timothy's faith was

UNFEIGNED. - *undisguised, not counterfeit,*

1-His faith was sincere. *not hypocritical,*

2-His faith was real. *genuine*

2-The subjects of his faith were:

1-First in thy grandmother Lois.

2-And in thy mother Eunice.

3-And I am persuaded that in thee also.

3-His grandfather is not mentioned.

4-His father mentioned but not named-A Greek.

1-It is pleasant to see faith, in spite of paternal negligence, transmitted through three generations.

2-It is sin, and not grace, that is easily transmitted by blood.

1-A modern family situation: The Barr Family.

1-This case is not altogether typical--but it may be prophetic of what is ahead of us.

2-From a distant college:

1-Unexpectedly Lucille comes home for the week-end.

2-Lucille had not planned it, but Tom, a neighbors son had prevailed on her to desert the college town with him inspite of impending examinations.

3-From a distant town:

1-Jack, the eldest son of the Barr family, who is in business for himself, has flown home for the week-end at a neighbor's house party.

4-Father, the tired old business man:

1-Has invited some business associates for a Sunday's golfing.

5-So:

1-Mother and the youngest daughter represent the family at church.

2-What has become of the family religion??????

1-We shall not answer that question just now--
But what has happened to the Barr family has been happening to thousands of others.

3-In modern life, four types of family patterns may be differentiated in contemporary America:

1-The paternal family:

1-The paternal family is characterized by the headship of the father and the subordination of the mother and children.

2-The maternal family:

1-Is the assumption of the dominant role by the mother.

3-The Equalitarian family:

1-Is characterized by the tendency for the members of the family to be on equal plane with one another.

4-The filio-centric family: Filial.

1-The children have a certain respect for the parents and the ^{parents} children for the parents--Nothing more.

children

4-The Patriarchial, or the paternal type family passing: WHY? The father was head of the family This type family passing because:

- 1-It is contrary to the spirit of the times.
- 2-Largely the result of the education of women.
- 3-Because of business the father is far removed from the family.
- 4-The family affairs have been left largely in the hands of mother.

5-In a plea for parental authority--A modern educator at a recent conference on vocational guidance delivered himself of this vigorous opinion:

1-"I do not hesitate to say that in my opinion the children of today do not need vocational guides so much as they need a new set of parents." :

2-Parents who have spunk enough to to climb back upon the thrones in their own households which they have abdicated in favor of their children:

3-Parents who have energy enough to get their children out of bed early enough in the morning:

1-To wash their faces, comb their hair, to lace their shoes without the schools being obliged to give promotion credit for their doing so.

4-Parents who when the shade of night begin to fall----Look after their boys with the same degree of care that they give the bull pup, which they chain up, lest he associate with the strange cur upon the street

6-There is Anarchy in ultramodern homes:

1-From magazines and woman's club discussions parents have learned the doctrine of the self determination of children.

1-The believe in the doctrine of free expression----LET THEM DO AS THEY PLEASE.

2-This is far more popular with the children than it is with the neighbors---For a single family of unrestrained children will soon have a whole neighborhood by the ears.

It is the contrary to the spirit of the times.
 -The result of the question of women
 -The result of business the father is the power
 -The result of the father is the power
 -The result of the father is the power
 -The result of the father is the power

It is not hesitate to say that in my opinion
 the children of today do not need vocational
 studies as much as they need a new set of
 "paradise".

Parents who have enough to
 do with their own children in their own
 households when they have children in
 favor of their children:

Parents who have enough to
 do with their children out of bed early enough
 in the morning:

Parents who want the child to
 learn to fall--look after their own
 the same habits of care that give the
 child, when they chain up, feel as
 associates with the streets and upon the

Parents who have learned the doctrine of the
 education of children.
 Parents who have learned the doctrine of the
 education of children.
 Parents who have learned the doctrine of the
 education of children.
