

## FIRST HOMEWORK ASSIGNMENT

You have been asked to teach a class on Micah 4. Please outline the steps that you would take to prepare your lesson. For example, how would you go about familiarizing yourself with the passage, identifying the lessons you would want to bring to the attention of the class, determining the problems in the passage, if any, that would confront you in your presentation, what you would do to present and answer them in class, and what application the passage has for the class. There may be other steps that you would or should take. If so, identify each and what you would do about them. This will be discussed in 2-3 weeks so you have some time. There is no “little book.” While you are on your own, feel free to use any materials that you wish to use. Please list each resource that you use in your work product.
